Rare Book Room Open for Students

By JOSEPH TERRELL, *Free Lance Star*

With little fanfare, as befits a library, an important addition has been made at Mary Washington College.

A rare book room has been set up in the E. Lee Trinkle Library.

The small, windowless room, with heavy wire screen doors protecting dark-colored bookcases, attractively lends itself to being just what it is. With some dignity, there is a vault-like air of value about the room.

Previously the room, located on the second floor just off the balcony that looks down into the main lobby, had

been the Virginia Room, where books by residents or relating to the state were kept.

An MWC collection of rare books, however, had long been a desire of many of the faculty members, notably Dr. Daniel H. Woodward, who is credited with spearheading the drive for the present set up.

During the summer of 1963, Chancellor Grellet C. Simpson appointed Dr. Woodward, Dr. Sidney H. Mitchell, Dr. Pauline G. King and Lawrence A. Wishner of the faculty and Dr. Gordon

W. Jones, local physician, as an advisory committee to the librarian, Dr. Carol H. Quenzel, on setting up a rare book collection.

The committee decided to begin the project in three fields: literature, represented by the highly influential James Joyce; science, represented by the French physiologist Claude Bernard; and 18th century architecture, landscaping and gardening.

Selection of the fields was made, among other reasons, on the basis of availability of books, competition with

DR. PEIRCE WRITES OF STAY IN INDIA

(From the Free Lance Star)

A visit with the vice president of India, a night spent in a parked bus after a Himalayan landslide, a production of "The Man Who Came to Dinner" by a largely Indian cast.

These are some of the things related by Dr. Alan S. Peirce in a report sent back to MWC describing experiences in the country where he is spending a year.

"It hardly seems possible, but two-thirds of our academic year in India have elapsed," he wrote.

"About the middle of September we joined the rest of the women's college team and the Fulbrighters in India at New Delhi for a valuable and informative program. We heard experts in many fields discuss current aspects of India's political, economic, and education and social conditions."

Dr. Peirce, who is accompanied by his wife, said they were privileged to attend sessions of both houses of the Indian parliament. They were entertained

at an informal tea by Dr. Zakir Hussain, Indian vice president.

En route to one of his assignments they entrained for Jullundur in north Punjab on the way to Kashmir Valley. At Ramban in the southern Himalayas they were held up by news of a landslide blocking their way. Directed to a government bungalow, they found it full, and, borrowing two blankets, spent the night in a bus.

They found Ramban "a jewel nestled among beautiful forested mountains." Returning to New Delhi in October, they met Dr. Peirce's new principal, Dr. Shridevi, Miss Shridevi is principal of Women's College at Hyderabad and will be a visitor in the spring at MWC.

"In Hyderabad," he wrote, "we visited Golconda Fort, an imposing bastion of the 16th century, and used extensively during the filming of 'The Prisoner of Zenda.' The Kohinoor diamond came from the Golconda mines. Here also is the Ohar Minar, a four-pillared monument celebrating the end of a severe plague epidemic; and the fabulous Faluknuma Palace of the old Hyderabad Nizam, at one time the richest man in the world.

The Peirces heard a group of about 30 Christian singers, most of them Indian, in a "thrilling performance" of Haydn's "Creation." Also at Hyderabad, they saw an Indian amateur group stage "The Man Who Came to Dinner," starring an exchange student from the University of Minnesota.

The Hyderabad stay ended on Christmas Eve, and the Peirces traveled to Bangalore, where their Christmas dinner was traditional—turkey with trimmings, plum pudding with butter sauce. Then they traveled on to Madras, where Dr. Peirce has just begun a term at Women's Christian College continuing until March 20.

Dr. Peirce, on leave from the MWC biology department, is one of the first participants in an Indian-American faculty exchange program. He has been teaching at three different colleges in India since last July. He and Mrs. Peirce plan to make an extended tour of the Pacific after his one-year assignment ends this spring.

other rare book collectors, importance of the field, and special interests of the members of the advisory committee.

Dr. Mitchell pointed out that one of the many factors influencing setting up the rare book room was that the library stacks, which contained many valuable books, were made open, and the more valuable volumes needed to be kept in some other location.

Both Dr. Quenzel and Dr. Mitchell expressed a belief that such a collection of rare books help give students an appreciation of the history of printing and a respect for good books.

Editor's note: Dr. Sidney H. Mitchell, Chairman of the Chancellor's Committee on Rare Books stated, "It is important that the Rare Book Room not be confused with a museum or repository for peculiar objects protected behind glass barriers. It is not. The Rare Book Room is an integral part of the library, and its contents are purchased and cared for solely in order that they may be available to students and faculty for examination, study, and research."

The collection, which now numbers approximately 500 volumes, has been greatly advanced by the following gifts:

From the Class of 1964, a generous sum for purchase of books. From Levin Houston, associate professor of music, an early edition of Joyce's *Haveth Childres Everywhere*. Dr. Gordon W. Jones, a Fredericksburg physician and long time friend of the library, has presented many valuable books to the collection. From Mrs. M. J. R. Morris, a number of gifts, including a "chain book," Fox's *Book of Martyrs*. Mrs. Paul G. Hook, assistant professor of education, has made a contribution in memory of her late husband, former Superintendent of the Fredericksburg schools.

At Homecoming this May the Alumnae College program will feature the library. Alumnae will then have an opportunity to see this interesting collection.

KENVIN NAMED FOR INDIA POST

The Board of Visitors of UVa approved a one-year leave of absence for Dr. Roger L. Kenvin, assistant professor of English at MWC, so that Dr. Kenvin may serve as an exchange professor for a year at the Isabella Thoburn College in Lucknow, India.

He will be the second faculty member at MWC to participate in the exchange program now in effect with US and India women's colleges. He and his family will probably leave for the assignment in June.

Dr. Kenvin holds an AB degree from Bowdoin College; an MA from Harvard; and MFA and DFA degrees from Yale University. He came to MWC in 1959 and formerly taught at the Institute Le Rosey in Switzerland and at Northwestern U.

FIRST EXCHANGE PROFESSOR ARRIVES

Anne Fairfax annex is the temporary home of Miss Padmabai Rubgundi, Mary Washington's first Indian faculty member, who will serve as visiting lecturer and consultant in the humanities during second semester. She comes here under the terms of an exchange program established last year with women's colleges in India and the United States.

Miss Padmabai, a native of Madras, India, holds her MA degree from the U of Madras and is a lecturer in English at the Women's Christian College in Madras. She did her undergraduate work at St Anne's College of the U of Oxford, England, and Woodbrook College, England. Last fall she was visiting faculty member at Connecticut Women's College in New London and Wheaton College in Massachusetts.

While at MWC Miss Padmabai will lecture in the following courses: philosophy, English, geography, sociology, and history.

TESTS SUPPLIED FOR COLLEGE BOARDS

Since the creation of the Educational Testing Service in 1947, MWC's James H. Croushore has participated in the program. Dr. Croushore, who is chairman of the English dept, has helped to both write and grade examinations for ETS, which supplies tests for the College Entrance Examination Board.

Each year Dr. Croushore attends an annual week-long committee meeting in Princeton, NJ. During this meeting, members of the committee score the College Board tests which were administered in December.

One of Dr. Croushore's projects in the past has concerned setting up methods to grade essay examinations. Presently he is working on development of an "end of course" test. This examination would be used after the completion of college freshman English courses or for advance placement in English.

Dr. Croushore described the test-writing procedure in six steps: 1—Plan the test. 2—Write the question. 3—Try the questions experimentally. 4—Assemble the tests. 5—Find out whether the test does the job it was intended to do. 6—Help to interpret test results.

FREDERICKSBURG CHAPTER

According to their president, *Peggy Hopkins Johnson* '53, and publicity chairman, *Dorothy Harris* '28, the F'burg Chapter has planned a full, varied, and most enjoyable sounding program of events for the year. The season began with a dinner meeting at the Princess Anne Inn in Sept and in Oct Dr. Eileen K. Dodd spoke to the group at Spotswood Alumnae House on "A Visit to Hong Kong."

The Nov meeting was at Brompton with Dr. Simpson as speaker. Dr. George Luntz gave a musical program for the chapter's Christmas party at the home of *Phoebe Enders Willis* '29 and in Jan the Dean of Students, Dr. Margaret Hargrove, was the guest speaker.

For Feb a benefit bridge party was held in the ballroom of Ann Carter Lee Hall. The spring continues to bring interesting events with Michael Houston, Director of Admissions, the speaker for March. The election of officers and presentation of an award to an area MWC senior comes in April and the annual family picnic in May.

BALTIMORE CHAPTER

The Baltimore chapter has had a busy schedule also. Late in Aug six MWC students were honored guests at a luncheon. A successful toy party was held at the home of *Eloise Reed Gabrik* '55 in Oct. Their big event came in Nov when Chancellor and Mrs. Simpson were guests at a dinner meeting. Dr. Simpson spoke on the current role of the college and on matters related to the curriculum, admissions, enrollment, and scholarship. Parents of students now attending MWC from the Baltimore area were in attendance. Preceding the dinner *Ruth Ludtke Scarbrough* '44 entertained the group at a social hour. *Mary Janes Fisher* '46, president of the chapter and *Eloise Reed Gabrik* '55, vp and program chairman, announced plans for a covered dish dinner meeting for Jan.

A battery of electric office machines for handling office records and multiple mailings, including student report cards, is being installed at MWC.

A "403" accounting machine, a collator, printing-card punch and sorter, and a reproducing punch and interpreter have been ordered from IBM.

Edgar Woodward, bursar, said the new equipment will begin regular operation this June after trial runs of some records and accounts in the business office. The largest users of the machines will be the admissions and registrar's offices for the handling of student records and grades.

THE 100TH DAY

Between 90 and 100 seniors accepted an Alumnae Association invitation to tea at Spotswood on February 23 in celebration of the 100th day before graduation.

Entertainment of the Senior Class at the alumnae house on 100th Day is becoming a tradition and is a pleasant way to introduce the seniors to the Alumnae Association.

Arranged for by the Alumnae Council, the annual teas are served by different chapters each year. In 1963 it was Fredericksburg, in 1964, Richmond, and this year the Maryland-Suburban Chapter was hostess.

Serving at the tea table were *Doris Steele '52*, of Silver Spring; *Peggy Kelley Reinburg '58*, of Fairfax; and *Jane Howard Patrick '48*, Kensington, Md. Others who assisted were *Irene Lundy Brown '39* of Newport News; Mrs. Mildred Cates Jamison, Faculty Advisor; and the five Senior Class agents: Flo Daniel, Barbara Hill, Penny Partridge, Joye Prier, and Carol Turner.

COLLEGE OUTLINES PLAN FOR GROWTH

By WILLIAM LAKEMAN, *Free Lance Star*

A six-year capital outlay plan totaling \$4,736,200, has been approved in principle for MWC by the UVa board of visitors.

Partly a standby plan for growth of the college, it proposes two new dormitories and a new classroom building for construction during the 1966-1972 period.

The program signals a tentative change of policy at MWC that could increase the present enrollment of 1,750 to 2,065 at the end of the six-year period.

Chancellor Grellet C. Simpson said the UVa board, which endorsed the plan in outline on Saturday (Feb. 6), left the implementing of it to the college administration, as the administration deems necessary.

Dr. Simpson termed "unquestionable" the need for the first of the two dorms proposed in the plan. He indicated the second proposed dorm may await the outcome of MWC enrollments next September before a commitment is made.

The six-year plan is an outgrowth of Governor Harrison's urging two months ago that MWC make available space

for a surge in student enrollments next September, if necessary.

At that time MWC estimated that its two-year capital outlay proposals for 1966-68 would be raised by more than \$1,000,000 if it became necessary to meet a new surge of students next September. A new dormitory and a class room addition to Chandler Hall were envisioned in the December estimate.

In the new capital-outlay plan:

- A separate classroom building . . . proposed for construction in 1966-68. A tentative site is suggested between Chandler Hall and the dining hall.
- The first of the two dorms is tentatively suggested for the hill side facing Sunken Road, next to where the curving new Russell dormitory is now under construction . . .
- The second dorm proposed for the 1968-70 biennium, is tentatively suggested for an inner-campus site between the dining hall and Monroe Hall where a brick bridge now crosses a ravine . . .
- Once again, top priority is given to the long-deferred physical education center (to be called Goolrick Hall), but a new site is proposed on the wooded hilltop between the Fine Arts Center and the alternate US 1 Bypass . . .
- A new laundry building, . . . is proposed for the 1966-68 biennium on the hillside behind the Fine Arts Center.
- The renovation of Monroe Hall . . . and of Willard Hall . . . are proposed for the 1966-68 biennium.

. . . The second biennium, 1968-70, would provide for the second dorm, plus a \$220,000 addition to the college heating plant and \$80,000 for air conditioning the library and Ann Carter Lee Hall, as well as a \$65,000 elevator in the administration building . . .

All of these proposals are subject to review by the governor and his Capital Outlay Study Commission, plus the 1966 session of the Va General Assembly.

Dr. Simpson acknowledged today that in his first nine years at MWC his intention has been to retain the present size of the college and strengthen its academic program and the calibre of incoming students.

Although the policy has been successful, there have been some debits, he

added, in the continuing overcrowding in some dormitories and a drop in out-of-state students at MWC.

"Within the framework of the present-size college, we have gone about as far as we can," he said.

Despite all these indications, the expansion of the college enrollment by approximately 320 students is still officially viewed as a flexible, if not stand-by, plan for the next six years.

The Chancellor termed the university board's action "an endorsement of what has been done and of what might be done."

Dear Girls: Make plans now for our 15th reunion. A letter from me will come soon. Hope to meet you at MWC the last weekend in May.

Appreciated Christmas messages. Heard the following news: Lillian Craig enjoyed a trip by wheelchair and jet in late summer to visit her brother in St. Louis. Mary Temple Coleman Thimer has been in the hospital with a heart attack. Wish her a complete recovery.

Margaret Sayre Ransone stays up to her neck in work. Who doesn't? Edna Gibbs Hunter spent holidays in Colonial Hgts with daughter. Was excited about a trip to Florida in Jan with her sister and nephew in a new Cadillac. Alice Warren Twiddy was in Cape Charles, her old home, for Christmas.

Etienne Broadus Moore is busy as usual with keeping two homes and caring for her granddaughter. She recently saw Margaret White Bear '17, who told her that Lillian Craig's genealogical record of the Craig family is in the Presbyterian Seminary Library here in Richmond. We are proud of Lillian.

Beulah Detwiler Anderson has postponed her visit to her son in Naples, Italy. You will be interested to know that Lucy Kennedy Boyle and her husband plan to leave Atlanta this spring and return to Mineral, Va to live. Lucy hopes to come to Homecoming.

Please note my change of address as I shall move soon into a new home. And remember the Alumnae Fund—let's be 100% in giving.

Love, Ruth

Start planning right now to go back to Mary Washington next May 28, 29, and 30. We do not have to be a reunion group to go back and enjoy a wonderful, free weekend at our Alma Mater. This year they are planning to have class reunions begin on Friday night.

Ina Scott Orrell's husband is retiring from active ministry and will be at home in Fredsburg after June 15. Rachel Messick Buchan has been teaching in Hargrave Military Academy at Chatham for several years.

Elizabeth Haile Cloe wrote on a Xmas card that she had been moving along in the same old way. On a trip she, her son, his wife, and two sisters took to Alabama to see her other son at Ft Rucker they visited Nancy Eubank Rea in Matthews, NC.

Nancy and husband, Zeb, live alone in one part of the old farm house. They run the dairy and farm. All of their ten children are married and only two still teach. Fishing is still Nancy's hobby and she wrote a long letter telling of walking three miles and back on one of her fishing trips. Her pleasures are walking with her grandchildren, making cookies with them, bible study, and church work.

I am planning to leave on Feb 7 for a three week stay in Orlando, Fla.

Bessie Morrisett Hancock has been a widow since May 1941. She now teaches but was also a bookkeeper in several Richmond firms. She has one daughter, two granddaughters, and two grandsons.

31 Ola Murray Martin, Beaverdam 23015

After teaching Home Economics for thirty years Owen Cobb lives at home with her mother and brother on a peanut farm. She and her brother are the third generation to live in the same house at Courtland. Owen is busy in church and Woman's Club activities.

Classmates, let's have a hundred per cent of the class members contributing to the alumnae fund this year.

34 Nellie Mae Stewart Pettit, Frederick's Hall, Virginia 23057

Although there were only five of our class at reunion last May we enjoyed our visit and had a wonderful time reading letters a number of you had sent. The reunion picture would have looked much better with more faces in it—wish more of you could have been with us.

Margaret Lambert Reardon came from Jacksonville, Fla to be with us. Not many of you live that far away. She is a secy at the Naval Air Station, where she received an outstanding performance rating last year. Charlotte Miles James has been teaching in

Arlington Co for 14 years and is active in DAR and church work.

Bernice Spicer Thoma is librarian at Falls Church HS and is president of the Northern Va Library Assn. Josephine Barefoot Lumpkin, Home Ec teacher in Henrico Co is chairman of the County Home Ec Assn. Her daughter, a beautiful girl from the picture Josephine proudly showed us, teaches in the same school with her.

I have a son who is a senior in HS and a husband who is commonwealth attorney for Louisa Co. We live in the country and enjoy all its benefits. My piano students and church music are some of the other joys of my life.

Marion Ells Sharp had all four sons in college last year! One graduated from Johns Hopkins in June, married a few weeks later and is now with the Peace Corps in The Philippines. The other boys are at Lehigh, Franklin and Marshall, and Lafayette colleges.

Isabelle Walker Spence had an eventful year. Her 1st grandchild was born; her husband retired from the weather bureau; and she from the church organ bench. She says she left quite a dent in it! After living in Houston for 22 yrs they fulfilled Nelson's life long dream of moving back to the NC mountains. They built a home on Lake James not far from Asheville. Her address is Nebo, NC. Isabelle sees Betsy Rigby McClain sometimes in Asheville.

Twin daughters of Lula-Lee Llewellyn House graduated from W&M in June. One is married and her husband received a PhD at VPI in June. The other twin had a graduation trip to Europe and is working on a masters degree at the U of Delaware. Lula-Lee and her husband play golf for recreation. She hopes to get to Homecoming someday.

Mary Virginia Willson helped so much in getting those letters out to you and then at the last minute she could not come to our reunion. That weekend she was changing her position and her residence from Staunton Elementary School Supervisor to Principal of a large elem school in Manassas.

Edwina Heely Bathke has lived in Atlanta since her husband retired from the Navy in '61. He is now with the Atlanta Housing Authority. One daughter is a senior at MWC and another a sophomore in HS. Edwina's latch string is always out to classmates who come to Atlanta. She says they are the only Bathkes in the phone book.

Sarah Overby is living in Chicago with a sister and writes that she is in love—with Chicago, that is! In addition to sewing she plays the piano, takes care of her cat, and does church work. I wish all of you could have read Sarah's letter—it was a gem.

Josephine Griffith Kleiner continues her work with Cuban refugees in Miami and loves every minute she spends at the Latin Center. Her son, 24, is at Travis AFB and her daughter is studying Fashion Designing at Miami-Dade Jr College. Jo and her husband bowl, play bridge, attend the Coconut Grove Playhouse series, help in the church,

take an occasional trip, entertain a little and try to convince themselves that "This is the Life!"

Sally Mae Clarke Christensen is in Roanoke. Her husband is supt of agencies for Shenandoah Life Insurance. They have two sons. The married one is an electrical engineer with Johns Hopkins Physics Research Center and the other son is a freshman at Carson Newman.

Louise Jones Hastings has a married son in NY. She and her husband own and operate a clothing shop in Franklin. Louise wrote that Rena Bradshaw, who was also from Franklin, died several years ago. Someone wrote asking about Blanche Elmore Tweedle '39. She died many years ago in Vineland, NJ where she lived with her husband and son.

Nellie Bryant White teaches 5th gr at Gari Melchers in Stafford Co and lives in Fburg; has one daughter, a jr in HS. Her husband is owner of White Supply and Glass Co. Esther Bernston Pearson in Oak Park, Illinois, is wife of a Baptist minister and is a teacher. They have a son in college and a girl in HS. When she wrote Esther was teaching from a wheel chair due to a broken hip.

Lois Henry, teaching in Jacksonville, wrote from Florida that she is beginning to slow down a bit, but is still having a whale of a good time living. She says maybe she is nuts but that she is enjoying Modern Math! Betty Poole Athey lives on Lynnhaven Inlet near Va Beach. Three children, 20, 15 and 13. She is supt of the Sunday School.

Hazel Barnes Fisher has acquired a son-in-law, a granddaughter, and a new home. She has two girls, one a graduate nurse and the younger one is in college. Hazel teaches in Surry Co Academy and lives at Claremont. Mary Anne Ratner Levy of Monsey, NY, is very much interested in organizing Girl Scout troops and a local alumnae chapter.

The PTA of the Apple Grove Elem School in Louisa Co gave a life membership to Mary Gammon Moore. She taught there for 24 years and had the pleasure of teaching her oldest grandchild last year. "Libba" Abbott Kales, who lives in York, Pa., has three children. A son in the navy, a daughter in Jr. yr at MWC, and another girl 15, who can hardly wait to go to MWC. Her husband is a salesman for Baugh Chemical. Edith Beckner Bullion has just been located in Norton and added to our files. She is a grand officer of the Eastern Star. Send us some more information, Edith.

Didn't you enjoy hearing from so many of our classmates and didn't it make you a bit homesick for your Alma Mater? There are many others we should like to hear from—Josephine, Florence, Sarah, Frances, Dot—just to name a few. Won't you send me some news for our next column? I can't write it unless you do. And keep up the good work with your contributions to the Alumnae Fund. The class of '34 was one of the top five in highest participation percentage.

'35 Phyllis E. Currie, 8000 Washington Highway, Richmond 23227

In case you haven't heard, this is our year to have a bang-up class reunion of the girls of '35. So let's have a real gathering of "The Group" (whether one agrees with Mary McCarthy's book or no).

Since I am back in Richmond as a lay teacher at Saint Joseph Villa it is strange that I'm so near and yet so far. Most of my news of the class comes from Christmas letters.

A card postmarked Las Vegas from Betty Griffith Beveridge said she and her lawyer husband were en route from California with a client. I met Marie Kraft Kelleher awhile back at an alumnae chapter dinner. She lives nearby on Clover Lane. Urple Cashion Taylor talked of stopping at the Villa to be shown around. Wish she would still try it.

Missed my usual holiday message from Mae Thomasson Sanford '34. One of her girls is married and lives in Germany. Her younger daughter was making top honors in HS. Hattie Ellice Lewis Stell is a teacher of modern math at Needham Broughton HS in Raleigh. She has two grandchildren. She and Lucille Roy Delany of Shrewsbury, Mass. were both at the last Homecoming I attended.

Grace Herr, who is on the faculty of Madison College, had two wonderful trips last summer. One with her mother and sister to Lake Louise and the other to Nova Scotia with some friends. She wrote of seeing Frances Mays, who is well known in state Phys Ed circles and lives at the Malvern Apts in Richmond.

Kay Grey '36 is in Elmira, NY and gets around the country quite a bit. Has been to Elkhart, Indiana and N. Dakota within the past few months. She wonders what has happened to "Andy" Andrews. On January 30 Mrs. Charles L. Goodloe announced the marriage of her daughter, Annie Rives Goodloe, to George W. Anthony at Chapel Hill, NC. Here is wishing the best of everything to you both. Annie Rives was a member of the UVa art school for 16 years.

In the near future I hope to mail a letter to all of you concerning our reunion scheduled for this May.

'36 Ethel Nelson Wetmore, 107 Manteo Ave., Hampton 23361

Our 30th reunion will be held in 1966 and the way time goes so rapidly it isn't too soon to be thinking of it. If you have lost touch with someone you'd like to write maybe the alumnae office has her address.

I was pleasantly surprised last April to hear from Kay Dryden Hock '37. She had read last spring's "News" and wrote me she was in Geneva, Switzerland the day after my son and Carol Livingstone '62 were married there on Oct. 5, 1963. Kay works in reliability engineering for NASA in DC and had attended the 14th International Congress in Paris. She has a son and two granddaughters.

The son of Edna Daniel Sheak married the daughter of Susie Dickinson Hudson. We all remember Edna and Susie, who were in HS together and then roommates at MWC. Edna's husband, Barclay, teaches art at Warwick HS and has had numerous paintings exhibited. Susie lives in Montgomery, Ala.

Vernie Blankinship Knight's daughter is a January '64 grad of MWC. She was married in February 1964 and teaches in Alexandria. Vernie's son attends UVa. Olivia Jane Wheeler McCallum and her husband have been living in Bangkok, Thailand. They planned to return to Ft. Eustis in Feb. Their daughter, MWC '64, is a graduate student at Yale and their son is at VMI. Both children chose to attend their parent's college.

Frances Winder Reeder's daughter will graduate in June from Ferguson HS in Newport News and has been accepted at Radford. Edna Harley Sickels telephoned me from Williamsburg last summer. Her husband, a professor at U of Miami, was teaching summer school at U of NC. They have one girl in HS.

Page Whitehead Hladky's older son is a Jr at Dartmouth and another boy is a HS Jr. Ruby Lee Norris had an emergency appendectomy when attending the VEA convention. We hope you are feeling fine now, Ruby Lee, and getting some rest. Audrey Rose Burton and her husband had a nice trip to New England last fall and planned one to Florida after Christmas.

My family keeps me busy writing letters as Warren and Carol are still in Geneva. Betsy works in NYC for McCall Pattern and Pam is a freshman at Madison. My third grader son has the same teacher Betsy had in the third grade. She is Mary Quinn Lambert, MWC '28.

Please keep the reunion for 1966 in mind and make plans to attend. Also send me any news you would like to have printed.

'42 Elizabeth Stoecker Gallant, 138 Page Road, Bedford, Massachusetts 01730

I goofed on the last issue. Sorry. Caroline Muirhead Ellwood, husband, three daughters and one son visited the Alumnae office in Dec. The Ellwoods live in Mexico and were visiting in the States during school vacation. Their oldest girl inquired about admission to MWC while they were here. Hilda Hodges Moody, Andrew, and a daughter, who is in HS, live in Richmond. Hilda is employed at Reynolds Metals Co.

Alfreda Steele Brandon, of Reynoldsville, Penna. is a busy person teaching French to all 4th, 5th, and 6th grades in three schools. This she does on a voluntary basis. Her husband is even busier with his medical practice. Their oldest son is a freshman at Alleghany College; the middle son attends military prep in Manlius, NY (I know it well Alfreda as my brother is an alumnus); and the youngest boy is still at home. I so enjoyed hearing from Alfreda. Won't more of you please write?

I talked with a girl who felt that a small donation to Annual Giving would not be acceptable so she sent nothing. Please—if all who felt that way would send just something we might well go over the top. The bigger the donation, the broader use of funds, but believe me, every contribution is cherished. Here's another thought for the less affluent of us. If we drop ten cents a week into a spare sugar bowl we have over five dollars in a year.

You will all hear from me very soon, if you haven't already. Please return the forms promptly. Thanks.

'45 Phyllis Pemberton Perkins, Box 6 Guilford, Maine 04443

Gloria Post Goodsell and Mary Doswell Simpson are making plans to attend our 20th reunion at Homecoming this May. Sue Fuss Hill is Director of Guidance at Stratford Academy in Macon, Ga. where her husband is the Headmaster. She has a master's degree and plans for a doctorate. Sue hopes to come to the reunion too. Mary Anne Burton Mountjoy teaches 2nd gr and has a son, 18, at UVa, a daughter 17, and a boy 8. Louise Woolfolk teaches first gr. in Louisa Co.

'46 Elizabeth Harrison Leitch, Box 3486, Upper Marlboro, Maryland 20870

Had a nice telephone conversation with Rosemary Sheehan Enright who lives in McLean with her husband and four children and is a substitute teacher at Madison HS in Vienna. She visited recently with Bessie Preddy Birkhead in C'ville and she sees Mary Davidson White of Oxon Hill, Md. often. These three were roommates at MWC.

BULLETIN BOARD

13½¢. x HUNDREDS = TOO MUCH

If we do not have your address correct in EVERY detail we must pay the post office 13½¢, and sometimes as much as 15¢, for the return postage and forwarding of your issue of the **Alumnae News**.

Hundreds of copies are returned to the alumnae office every time an issue is mailed simply because alumnae forget to notify us of changes of address. This is becoming so costly it may well cause a change in policy regarding the publication and mailing list.

DO YOU CARE . . . who heads your Alumnae Association?

Members of the Board of Directors are the leaders. They determine policy, elect the officers of the association, and see that the alumnae program is carried out. They are your representatives. They speak and act for you.

Five members of the Board will retire in June and you have the privilege of voting for their successors. There is a ballot on the blue insert of this issue—Please show you care by casting your vote today.

In 1964 only 215 alumnae voted although 7,565 ballots were distributed. Why?

masters at GWU in art history, specializing in Greek Vase painting.

Ray and I are enjoying our new home. He has one more year before getting the doctorate. He then hopes to be a college professor. I have just completed redecorating our apt, which looked as if the last person who had done anything to it was pre-revolutionary. If you've ever scraped 10 layers of wallpaper off a wall and then had the plaster drop at your feet you know what a frustrating job this can be. There are some things that I just didn't learn at MWC.

I hope to hear news from more of you soon. Remember the reunion in May will be our 5th.

Sorry there was no news in last issue. Connie sent me hers but I was out of town and didn't get back in time to mail it on. If some of the news is stale you'll have to bear with me. It has been hectic at work these past few months. I'm planning a trip to France this summer so *Betsy Hueston Hansen* has agreed to take over her old job of assembling the news.

Florence Lorraine Barrett married Dr. David M. Hall. She had been studying for a masters at UVA. They plan to take a glorious honeymoon for a year beginning Jan '65 in Switzerland. *Candes Parker* is now Mrs. Pat S. Chumney and expected a baby last Nov. She lives in San Antonio. *Regina Young Hall's* husband is a capt in the medical corps at Ft. Campbell, Ky. They are enjoying their army tour with their son.

Patricia Young Cooke's husband is still studying at Scarritt College. They plan to leave Nashville in June, probably for DC. They expect 1st child in March. To *Joyce Gann Rush* a girl, Dec '64. Her husband is a draftsman for Simplimatic Engineering in Lynchburg.

Last summer *Joyce Sweet Longest* visited her husband who is stationed in Germany. They had a wonderful time touring Germany, Italy, France, Belgium and other countries. She enjoyed Paris most of all. While in Germany she ran into *Jerry Britt '62*. Last Nov she attended *Judy Swecker's* wedding to Robert Riddick. While there she saw *Faith Moss* and *Mary Frazier Browne*.

Barbara Anderson Lehto lives in San Clemente while Mike is in Okinawa. She expects him to return in April. *Sylvia McJilton Woodcock* and *Stuart* are in Chattanooga where he works for DuPont. They bought a new home. She hears from *Kathy Russell* quite often. *Judy Givens* and *Sybil Smith* are both going to teach in Europe this year.

This seems to be it for this time. Do keep the news coming and we'll try to do better on getting it in on time. You who haven't let us hear recently, please write.

Hi Gals! Boy, between Christmas cards, letters, and the grapevine I'm loaded with news. Let's see . . . *Barbie Upson* Gravely and I pooled news from Xmas cards.

Bev Carlson wrote she still works for Atlantic Research in DC, lives at home and is working on an MA in English. She still dates her Marine from Sr yr, *Jim Shea*, who is at Cherry Point. *Dana Davis Calhoun* is in Calif. *Barbara Buse Johnson*, who transferred to Gettysburg her jr yr, married a graduate of U of Washington and lives in Bladensburg, Md.

Gail Rilling married *John E. Stockton*, a Colgate grad and lives in San Francisco. I finally found out *Linda Lange Senf* and *Tom* are in Bloomfield, Conn. *Vaughan Hargroves* Scott and *Walter* bought their dream house in Richmond where *Walt* is working for a bank.

Carolyn Crum Pannu and *Singh* spent three weeks last summer in India and Berlin visiting his family and her married brother, *Wally*. They are still living in Fla. *Carolyn* saw *Pat Scott* and *Carolyn Barnette* at a Christmas party and *Pat* is engaged. *Mary Wilson* is working on a grad degree in psychiatric nursing at Catholic U. *Nancy Edmunds Morris* and *Dewey* are in Baltimore now. Maybe she and *Betsy Wright Coxe* can get together as *Bitsy* and *Mike* built a new home in Phoenix, Md.

Sandee Judkins Armitage and *Bob*, now in Brookfield, Conn, had their 2nd daughter in Dec '64. *Pat Pollock McFarland* had a glorious trip to Honolulu last summer while *Ed* did his summer reserve training there. Her former roomie, *Joan Pouso Thomas*, visited *Pat* and *Ed* when she returned from Christmas in Hawaii with her husband who had been in Saigon for 8 months. *Pat* has a girl 4, and a boy 1. She will be coming to Penna in July for her sister's wedding.

She and *Jim* are in Craig AFB next door to *Dee Doran Cairns*. *Dee* was in Va visiting her family at Ft Lee at Xmas and planned to see *Sylvia Barden Heiner* and *Bitsy Coxe*. *Pam Ristori Correll* and *Bob* are back in Ann Arbor where they are both students again—*Bob* in med school starting Sept '65 at U of Mich and *Pam* doing grad work in edu. They will live with *Bob's* parents until June.

Got a real nice card from *Lloyd Tilton*. She worked for IBM in DC last yr but transferred to Richmond. She is secy for a manager "working more than she ever dreamed she could, as we all are probably." She sees *Sara Ellen Flowers*, husband *Mac* and baby some; also *Betty Marchant Eldridge* and *Ben*, who are still in DC. She says *Rosie Borke* and *Karen Johnston '59* are living together in Annandale. *Rosie* is at NIH. *Lloyd* takes Speedriting two nights a week and does volunteer work at MCV one night. Busy and fun life!

Betsy Hueston Hansen and *Carl* returned to the US last July and are at Ft Knox, Ky.

They are awaiting the arrival of their 1st child in March or April. Some news from our traveling classmate *Charlotte Howard Austin* and *Hank* who went in Oct from Camp LeJeune to Argentia, Newfoundland, their new station. They are living in "sub-standard" off-station housing at present but hope to be in quarters on station by the end of the summer. They expect their 1st in mid-May.

Janie Riles Wamsley, in Suriname, South America, says they are back in their jungle home in the little mining town of Moengo after living about 3 months in the city of Paramaribo. They enjoy the life there except they can't get up and go away for a weekend because there are no roads to go anyplace on. They plan a 4 week vacation in April to tour So America. Nice!

In Jan I got a marvelous letter from *Nancy Wright* with lots of news. Many thanks *Nancy*. She and *Grant* have a 1½ yr-old son. *Grant* is working on a masters in electronic eng at Navy Post grad school in Monterey, Calif. They both love the area and she says as much as she loves Va she's afraid the scenery doesn't compare. They've been there since June '64. *Nancy* is busy with Officers' Wives, community and church activities and watching movie stars at the Bing Crosby Golf tournament.

Ellen Grumbly deGail and *Patrice* live in Paris and have a boy, July '64. She enjoys Paris but misses family and friends. *Joan Gibson Lippold* and *Jim*, a girl July '64. They were in Bloomfield, Conn while *Jim* was in Sub school but expected orders in Jan. Had *Joan* seen *Linda Lange Senf* there?

Jane Snyder Osman married Navy Lt. *John* at Christmas and now is in Panama. *Phyllis Pierce* was married to *Rick Schwartz* in NY in Nov '64. She met him when she taught in Baumholder, Germany last year. That is the town where *Patty Cairns Hourin* and I lived when we graduated from 8th gr together in June '53. Small world! *Rick* works for Montgomery Ward and goes to law school at night.

Linda Giles Poole and *Buddy* left Port Austin, Mich and the Air Force in Nov. Now they live in Waynesboro and have a daughter. *Nancy's* roomie for 3 yrs, *Marion Murlless Phillips*, and *John* live there too. *John* works for Du Pont. The *Phillips* have a girl born Dec '63 and a new home they bought last summer.

Carolyn Spell Robertson and *Jim*, a dentist, live in Ft. Meade, Fla, which they love and "will be there forever." They are expecting their 1st in Aug. *Carolyn* saw *Dee Doran Cairns* at Christmas. *Aileen Woods Talley* and *Jim* are in Fairfax where she loves teaching 8th gr Am history. They are building a house this summer.

Marilyn (Mouse) Messier Whitmore does

a wonderful job of keeping up with Madison 1st floor. From her long letter:

Judy LaRoe Hare and Don have settled in Napa, Calif and manage a string of motels there, owned by Don's father. They have a girl and boy and urge anyone out their way to see them at 2120 Buhman Ave. Judy says they've seen *Ginny Brown* Rummolds '62 and husband who are also in Calif.

Jackie James Gloechner and Kurt, in C'ville, have two girls and she is expecting again. *Sybil Smith* taught in Alexandria 3 yrs and last Sept left for Germany to teach in an American school. She loves it. *Barbara Anne (Bobbie) Brooks* just finished a 6-mo contract with GE at the World's Fair. She was a hostess in the VIP lounge in the GE Pavilion and was hired over 600 other applicants. Was really quite a thrill for her. We are proud of you, Bobbi. She used all four of her fluent languages often—French, Spanish, Italian, English. Bobbi has an apt in NY with a Pan Am hostess and is having a ball.

Barbara Anne Brooks '61 guides *Virginia's Governor Albertis Harrison* at the World's Fair General Electric exhibit.

Linda Berenguer and *Noreen Galvin* have an apt in NY also. Both have very good jobs in the city and are having a ball also. Mouse and Bill went to *Mandy Carson's* wedding Xmas '63, when she became Mrs. Edward Hitchcock. Mandy and Eddie are living right next to *Kay Gamble Reinhr* and Al in Norwalk, Conn. Mandy teaches 3rd gr and Kay has a baby girl.

Janis Murphy Reifer '62 and Monte are in Bladell, NY and have a little girl. Mouse is teaching 2nd gr in West Orange and participating in sports car road rallies with Bill, an engineer with Bell Telephone Labs. None of 1st floor Madison knows anything new about *Mary Jane Giles*, *Lainey Pastorius*, or *Dannelle Simms* Daniels, mainly 'cause they haven't heard from them or know where they are. Hint!

(Continued from last issue)

Anne Eckert has been in Boston since she returned from Europe Sept '61. She is asst counselor to the Associate Account Director for United Investment Council. *Martha McMillan*, who shares her apt, has a secretarial job in a law office. They love Boston!

While waiting for her 1st baby, due this

winter, *Georgie Georgeou* Rahnias is helping her husband in his dental office in Jersey City. Her Greek husband and mine, we've discovered, were HS classmates in Thessaloniki, Greece! She says *Merle Traynham* is still teaching in Hampton. *Moonyeen Joyner* Booma and Scot have a son and *Anna Lonn* Cushman says she and Moon were neighbors in Marblehead, Mass.

A note from *Sarah Leigh* Kinberg written Feb 1964 said *Kay Whichard* Lewis had a boy the same day Sarah's girl was born, both in Norfolk! *Nancy Driskill* Warren had a 3rd girl. *Becky Paris* Spetz and Wayne have a girl, born April '63. They live in Rustburg. *Bitsy Wright* Coxie returned to Baltimore as Mike's navy career ended Oct 12. He is back with C&P Telephone. She suffered a long bout of "mono" which kept them from leaving Newport last May. Their son is the light of their lives.

Hope some of you gals will be able to make it to Homecoming this year, but if not, let's start planning a big 5th reunion for next year. My next news deadline is June 15 so if you have news send it to me before then. Have fun.

Connie

However I don't guarantee a prompt reply. How about it?
